

Insider Risk Management, Employee Monitoring & Productivity Optimization

Powered by User Behavior Analytics

Privacy-First Monitoring

Teramind is dedicated to the privacy of our customers and their users.

\triangleright

Monitoring Limits

Use Teramind's monitoring limits to restrict what the agent records.

- Limit session recordings to only record rule violations and the surrounding activity.
- Black out user PII, PHI, or PFI when it appears on-screen during session recording.
- Disable recording for personal websites and apps like banking or messaging apps.
- Set monitoring schedules so off-the-clock activity like lunch breaks aren't recorded.

Customer Data Protections

Teramind's rules and policies provide an added layer of security to customer data protection.

- Customize rules and alerts to protect against malicious customer data usage.
- Find out when customer privacy data is transferred, copied, or edited.
- Restrict access to customer data to only those who need it.

	ACTIONS UPON RULE VIOLATION ③
NEW RULE ① Rule Name * ③ Restricted sharing financial data	Basic Actions Notify ① Who to notify * ①
Type of rule * ③ Content sharing	access@mail.com × Denis V × Block ③ Time that this rule is active ①
Types of content * (3) Clipboard Files Emails	Lock out user ① ● ● <
Instant Messaging Keystrokes	Record video Command

Since 2014, over 10,000 organizations have trusted Teramind to provide workforce productivity analytics and optimization and business process optimization in addition to insider threat management through behavioral user data. By harnessing behavior analytics, our award-winning platform has helped enterprises in finance, retail, manufacturing, energy, technology, healthcare, and government improve their workforce processes and safeguard their sensitive data against threat.

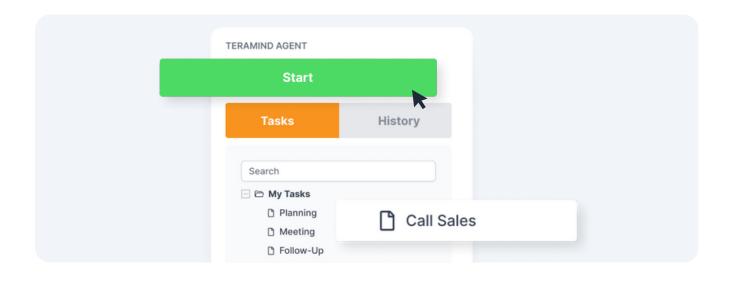

Teramind Revealed Agent

Get complete monitoring transparency using Teramind's Revealed Agent.

- Allow users to toggle their monitoring on and off at will.
- Satisfy data collection consent laws like GDPR.
- Give users the ability to select what tasks they're working on.
- Track user activity rather than the machine.
 Perfect for remote work or BYOD.

ERAMIND

Privileged User Monitoring

Keep track of administrative access and gain oversight of users who present the greatest risk.

- Customize permission settings and access controls.
- Use role-based access controls to limit permissions to monitored employee data.
- Segment access so privileged users have limited capabilities.
- Limit viewing and retrieval of monitored employee data to restrict data distribution.
